

IDR Partners Limited is a specialist recruitment partner to the life sciences industry. We have strong core values, one of those values being promoting action against climate change. We do this through positive actions and key business partnerships which enable us to be an environmentally friendly business.

- IDR Partners Limited understands it's responsibility to promote responsible energy consumption and minimise the use of materials in the workplace.
- IDR Partners are completely committed to using recycled materials where possible and actively encourage our business partners to do the same.
- IDR Partners is committed towards achieving a paperless work environment where legally possible.
- All non-essential electrical equipment and lighting will be switched off outside of working hours.
- Recycling of waste on site including all nonessential paper-based products.
- IDR Partners will return printer cartridges to the manufacturer for re use.
- Office glass, plastic and tins will be recycled as per our recycling policy.
- Promotion of shared mobility where possible.
- IDR Partners Limited will promote action against climate change to it's partners and maintain our sense of responsibility.
